THURSDAY, APRIL 7, 1898.

It war comes the battles will be largely fought and won by American coal inexhaustible Spanish supplies by the ship load.

At a meeting of the Jackson county Democratic Committee recently a resolution was adopted condemning the Goebel law. There are some Democrats who decline to be made parties to the outrage.

The Treasury gold reserve continues to grow in the very face of possible war. It now is \$175,628,686 and the available cash balance has reached \$225,932,219. There is nothing small about Uncle Sam's pocket book.

Mr. E. E. Guffy has resigned the position of Assistant Secretary of State to take the place of Chief Deputy Surveyor of the Louisville port, and Prof. E. E. Wood, of Whitley County, has been appointed in his stead.

THERE were only 52 business failures in Kentucky for the first quarter of 1898 as against 77 for the first quarter of 1897. The failures for the whole country are fewer than they have been for four years and Kentucky shows a very healthy decrease.

OLD naval authorities are unable to see where Spain's coal supply will come from in case of war. Coal is contraband of war and the Spanish fleet will be unable to obtain it in neutral ports. Our navy would have an easy task taking coal shipped to Cuba.

THERE is an available cash balance in the Kentucky treasury of \$275,000 and the State officials say that if an extra session of the legislature should be called for the purpose of making a war appropriation there would be no difficulty in meeting it.

BRANN, the editor of "a black-guard newspaper," published at Waco, Texas, is dead as the result of a street duel brought on by his villainous attacks on the names and character of the people of that place. The man sowed violence and discord not only there, but broadcast throughout this country and he has reaped destruction. Another probably fatal encounter has occurred at Dallas, the outcome of the first tragedy. There was but one Brann and his influence for evil cannot survive to any great extent. His paper of big circulation and degrading tendencies cannot retain his personality, its whole charm to those who read it.

Our Militia.

Col. Jno. B. Castleman, of Louisville, has expressed the belief that the number of volunteers in Kentucky available on the call of the Governor within a reasonable time would amount to 200,000. There are now available 1,400 militiamen in the State, equipped and ready for immediate service. The total appropriation for the support of the militia of the country is \$400,000 and Kentucky gets \$11,000 of this, enough to properly equip some 200 men. Col. Castleman has recommended an increase of the appropriation to \$1,000,000, which would give Kentucky \$28,000, and Congressman Evans has assured him that the committee would recommend an appropriation of a million dollars.

Sunday Sermons on War.

The sentiment of the leaders of the Christian world with reference to the impending war is expressed in the utterances of three eminent churchmen in their last Sunday sermons. These are President Patton, of Princeton University, Episcopal Bishop William Lawrence, of Boston, and Cardinal Gibbons, of Baltimore.

President Patton said, in part: "I am sure that I am speaking for you when I say that the President of the United States deserves the gratitude of the nation for his manly course in these negotiations. He has borne himself with quiet dignity, and his patient, calm judgment and unswerving desire for peace are worthy of the highest praise and have won for him the confidence of all calm, peace-loving and sober-minded men. May God lay his hand upon the feverish pulse of the nation. May the Governments of these two nations be not driven to undertake a war that must not only threaten bankruptcy and revolution, and possibly a worse calamity to Spain, but be costly beyond

expression in the sacrifice of blood and treasure to the American people." Bishop Lawrence gave utterance to the following sober and patriotic words: "It was most come, let it come; but before it comes let us strain every nerve for peace as behooves a Christian nation. The point is not whether by diplomacy, by conciliation, by conference, by any means except war, the object which this nation in its sober judgment and not in excitement believes it should attain, can be attained by peace. What boots it a few days or weeks provided this nation stands before the world and before God as having exhausted every means for a peaceful settlement before a resort to arms?"

We thank God that he who stands at the head of the nation, the representative American, has shown himself to be strong, self-restrained and a lover of peace. He has had grave judgments to make and he has made them as if the Prince of Peace stood before him. He has the facts and he will be trusted by Congress and by the people in his own time to act upon them."

Cardinal Gibbons made a plea for peace in these words:

"On this day when we commemorate the entrance of the God of peace into Jerusalem, let us implore Him that He will so guide the minds and hearts of the President and Congress, that He will so direct the counsels of Spain, that He may inspire both nations, with a happy solution to the problem which confronts us—a solution honorable to both nations—so that the clouds of war may be dispelled and the blessings of heavenly peace may be preserved to the nation."

These great and good and patriotic men do not advocate "peace at any price," but peace if possible, with honor; war if it must come. Their expressions prove their strong confidence in the President and their endorsement of the course he has pursued.

The Joys of Spring.

(L. A. W. Bulletin.)

"Tis the welcome April shower, 'Twill amake the sweet May flower." So runs the old song, but, alas! the sweet May flower is not all that will be awakened by the April shower. There are thousands of miles of poorly-made, sadly-drained soft clay country roads.

How does the April shower affect them? "Tis the dreaded April flood, Filling all the roads with mud, may sound less poetic and sentimental, but it comes nearer hitting the bull's-eye of a truth. From nearly every state in the Union come reports of impassable highways. King Mud is in control of the public roads, and he either entirely prohibits the public from using them or he lays a heavy toll on all who do. To Tennessee lines—"In the spring a livelier iris changes on the burnished dove."

In the spring a young man's fancy lightly turns to thoughts of love." might very truthfully be added,— "In the spring the rain descending fills the road with mire and mud, Till the highway's only suited to the web-foot of the duck."

"It is a nice day overhead?" "Yes, but it's very bad underneath," is the substance of many a greeting during the glad days of spring. Everybody agrees that spring might be the nicest season of the year, but as a matter of fact, the "going" is always a source of real distress. There is a sea of mud between us and every charm of lane and field. With good, hard, smooth, well-drained highways it would be great joy to go about and observe the matchless beauties of spring, but—

"How often, oh, how often," is the charm of earth and sky almost totally eclipsed by highways filled with mud.

Spring, spring, gentle spring! so fresh, so sweet, so soft; The air is very soft, but oh! the roads are softer yet. The woods and fields, without a doubt, are gay with bloom and bud, But no one ever sees 'em, 'cause the roads are full of mud.

What can we do about it? We can keep everlastingly hammering away, individually and collectively, socially and politically. Roads in many parts of the country are better than they used to be, and sometime they will be better than they are now.

IS DREYFUS DEAD?

A Rumor that the Persecuted French Soldier has Succumbed.

Paris, April 5.—A rumor was current here today that Alfred Dreyfus, the former captain of artillery, who was sentenced to imprisonment for life, for betraying important artillery secrets to a foreign power, is dead. He was undergoing imprisonment on Devil's Island, off the coast of French Guiana. The colonial office, however, has no information on the subject.

GUNS LEFT TO SPAIN.

Caps of Maine Turrets Could Not Be Moved Without Dynamite.

(Copyright, 1898, James Gordon Bennett.) Key West, Fla., April 5.—(Special).—When Lieutenant Commander Wainwright left Havana harbor yesterday afternoon the tattered flag that has blown from the shreds of the wrecked battleship Maine since February 16 was hauled down, and the Maine went out of commission with the departure of the last of her surviving officers. The entire outfit of American wrecking apparatus cleared soon afterward.

Workers succeeded in saving the breech-locks of the big 10-inch guns of the Maine, but the guns themselves will probably never be recovered, prohibition of the use of dynamite having made it impossible to remove the caps of the big turrets so as to get at the guns.

AS TO THE MESSAGE.

DID NOT GO TO CONGRESS YESTERDAY.

Probably Delayed by Necessity of Getting Americans out of Cuba

THE BEE asked for information by telegraph yesterday afternoon inquiring whether the President's message would be submitted to Congress and whether it could be furnished for today's issue. The following special was received in reply:

St. Louis, Mo., April 6.—(Special to THE BEE).—Now probable President McKinley will not send his message on the Cuban question to Congress today, or if so, it will be sent late. The reason for further delay is not definitely known, but it is either on account of Spain agreeing to an armistice or because General Lee may have made representations to the administration that it would be impossible to get Americans out of Cuba by time limit.

Confederates Want to Fight. Morganfield, Ky., April 4.—Adams Johnson Camp No. 1008, United Order Confederate Veterans, met here in annual session today and decided to offer their services in the event war was declared with Spain.

TO CLOSE.

Consul General Lee Ready to Quit Havana.

Has Notified All Americans that They are to Leave Cuba at Once.

Havana, April 5.—For some reason the opinion is generally held by Spaniards and Americans that Consul General Lee will close the American consulate Thursday, turning the affairs over to British Consul Collan. Americans have been notified from the consulate that they are to leave at once.

The Mascotte will tomorrow carry the largest list of passengers ever known. The boat's law limit will be exceeded by probably fifty, and from 250 to 350 will go. A request was cabled today for two extra boats, and the Olivette will be here Thursday, accompanied probably by the Florida. This will carry from 500 to 600 between them.

Besides these there are the Fern, Mangrove and Bache. These will be retained for Gen. Lee and the attaches of the Consulate, the newspaper correspondents and a few native born Americans who are actual residents here.

The Orizaba will carry a full quota of passengers when she leaves tomorrow evening, so that the next two days will not see less than 1,000 leaving Havana for American shores. Another thousand will go before Sunday if possible.

GRADES IN NAVY AND ARMY.

How the Officers Rank in the Two Branches of the Service.

The following interesting and timely bit of information, which comparatively few people are familiar, is taken from the Courier Journal and is a portion of an interview with Lieutenant H. S. Whipple, of the Seventh Cavalry, U. S. A., given for the purpose of presenting in a pleasant way information very easily accessible to any one who will inquire but which is not generally known:

Lieut. Whipple was asked to explain the difference in grades between army and naval officers.

"First of all," he said, "the President of the United States is Commander-in-Chief of the army and navy and the militia of the various States in the service of the United States. Then the Secretary of War controls the army, as the Secretary of the Navy controls the navy."

"After these come the following officers in the army and navy. The grades in the respective branches of the service are as follows:

| ARMY. | NAVY. |
|---------------------|-----------------------|
| Major General. | Rear Admiral. |
| Brigadier General. | Commodore. |
| Colonel. | Captain. |
| Lieutenant Colonel. | Commander. |
| Major. | Lieutenant Commander. |
| Captain. | Lieutenant. |
| First Lieutenant. | Lieut. Junior Grade. |
| Second Lieutenant. | Ensign. |

Besides these," said Lieut. Whipple, "cadets after leaving Annapolis are required to cruise two years as warrant officers or cadet midshipmen. At the end of these two years they are given a second examination and are commissioned as ensigns, so that in reality a course at the United States naval academy takes six years, while that in the army takes only four years."

WATER BOUND.

Sturgis and Caseyville Suffering From the Flood.

Sturgis, Ky., April 5.—Sturgis practically sits on an island, being entirely surrounded by the flood from the Ohio and Treadwater, and business in consequence has been cut off from the surrounding territory.

Ellis Hearin, an old farmer, was rescued from drowning while attempting to ford the old railroad bed. At Caseyville the whole town is under water and business has suspended. The waters are now within four feet of the great '84 rise. The weather is threatening.

Conductor's Story

A Friend Put Him on the Track to Good Health

Had Been Laid Up for Two Months with Dizzy Spells.

"I have had a stomach trouble for the past three years and last winter I was so that I could not work for over two months. I would have dizzy spells when I could not get out of bed, and when I was lying down it seemed as though there was a hard lump in my stomach. The medicines given me afforded relief only for a time. A friend advised me to try Hood's Sarsaparilla, which I did, and after taking six bottles I am glad to say I never felt better in my life. I do not have any more of the feel the lump in my stomach."

St. Jackson, Passenger Conductor, P. C. C. and St. Louis Ry., 429 19th St., Louisville, Kentucky.

Hood's Sarsaparilla is the best—in fact the One True Blood Purifier. Insist upon Hood's; take no substitute.

Hood's Pills are gentle, mild, effective. All druggists.

SIX SHIPS TO HAVANA.

Fleet Goes to Bring Americans From Cuba.

PREPARING FOR A CONFLICT.

Washington, April 5.—The United States government has dispatched a fleet of six vessels to Havana to transport Consul General Lee and all the United States consular officers, together with all Americans now in Havana and vicinity, who desire to leave the island of Cuba. The names of the vessels are the Bache, the Fern and the Mangrove, all government tenders; the Olivette and the Mascotte, of the Plant system, and the steamship City of Key West, which have also been chartered and form a part of this fleet.

In addition to these vessels Consul General Lee is authorized to charter as many other merchant vessels now lying in Havana harbor as he may deem necessary for the safe transport of American citizens. The safety of Gen. Lee, our consuls and other Americans in Cuba is a matter of concern to the state department, and it is believed that Gen. Lee indicate that this would take some time and apparently showed that he did not share fully in the apprehension felt here.

RESTRICTIONS REMOVED.

Americans May Leave Havana Without the Usual Health Certificate.

Washington, April 5.—In response to representations received from Gen. Lee, the Treasury Department has telegraphed to Dr. Brunner, the Quarantine Officer at Havana, directing him to permit all Americans who desire to do so, to leave Havana without certificates or examinations. On the arrival of the vessel at the Florida coast with Americans from Cuba, an examination will be made and the vessel will be held until it is determined that there is no disease on board.

The State Department has received a dispatch from Consul General Lee saying that in case of war is declared he will not be able to get the American citizens out of Cuba before Sunday next.

A Republican member of the Foreign Affairs Committee says that the delay asked for by Gen. Lee to get the Americans off the islands, he understands, will not entail a delay in the transmission of the President's message to Congress, and a prominent Republican member of the House said this afternoon that so far as the administration is concerned, no delay is desired beyond to-day for the transmission of the message. "If Gen. Lee believes that the safety of Americans in Havana will be imperilled we must wait. We cannot be responsible for a massacre. But the fact that Gen. Lee fears the possibility of such a thing shows the kind of people we are dealing with."

EVEN JINGOES WILL BE SATISFIED.

The Message Will Completely Cover the Cuban Situation.

Washington, April 5.—Congressman Pugh today said: "I am satisfied from a personal conference with the president that his message will be a dignified and courageous arrangement of Spanish misrule in the island of Cuba, and which will satisfy the immediate expectations of the people and will go down in history as a complete justification of the war which has been waged in America."

"I believe it will be a complete reply to the jingoism of those who have been disposed to impatiently criticize his course."

DOWN IN THE MINES.

Mr. J. B. Atkinson is away on a business trip in the South.

Mr. Lee Salmon, of Crabtree mines, who has been quite sick, is now better and able to visit relatives here.

A large tow of barges loaded with coal passed down the Ohio River last week, bound for southern ports.

Last Friday while passing over the falls at Louisville ten coal boats and two barges with 62,500 bushels of coal were sunk.

Strange to say while the miners here generally have been in a state of anxiety, half of Cuba, few of them feel anxious or willing to enlist.

The St. Bernard will soon have a new building erected around the big compressor lately purchased. George Farnsworth will have charge of the brick work.

Foreman Toombs is now making quite a number of improvements on several of the St. Bernard's buildings and has quite a lot of work of this kind on hand.

Dan W. Umstead says they have experienced considerable trouble with water in the mines during the last few weeks, caused by the excessive rains, but he thinks that the worst is now over.

The Empire Coal Co. is now doing a

thriving coal business and Foreman Robinson has confidence enough in the present administration at Washington to believe that prosperity has come through the Dingley tariff bill.

Senator Elkins of West Virginia, who is largely interested in the mining industry of that State has shown his great love for the Cuban cause by donating a large sum of money for their aid and the relief of suffering on the island.

Several boys at the new South Diamond mine one day last week attempted to poison a small boy of Mr. Pat Blair who works near them in the mine, and the result was that young Blair gave them a good fight and did not get oil poured on him as was threatened.

Quite a contest is on among the Barnley miners over the election officers for the ensuing year of the Co-operative Coal Co., and while the election of directors and officers promises to be a heated one, there is no indication of a declaration of war.

The Hollenback collier, at Wilkesbarre, Pa., has been closed down for an indefinite period. The Sugar Neck collier will be worked at intervals. Other companies are working but two days a week. The Reading & Iron Company collier, at Shemakin, Pa., began working three quarters time this week.

A Sioux Falls, S. D., dispatch says that a burning coal bed, covering several square miles, from 25 to 300 feet below the surface, was found by prospectors in the western part of the state last week. It shows indications of having smoldered for years. The sulphurous fumes attracted the prospectors, who gave the subterranean fire a careful examination. Coal was found in unlimited quantities.

The anthracite coal interests have practically agreed to restrict coal production during April to 2,000,000 tons, the small output recommended for some years past. It is obvious from the agreement that anthracite interests are making strenuous efforts to avoid if possible recurrence of last fall's demoralization. It is also an indication of the inactivity of the market at the present time.—Bradstreet's.

Bellefonte, Ill., April 1.—The coal miners of this district turned out in full force this afternoon to celebrate the successful issue of their last strike for better wages. A grand parade was held, and the police force under Capt. Jackel, Mayor Winkler and the members of the City Council also took part. After the parade the addresses were made at Hadden's Garden by George Wickline, of Nashville, Ill.; John Green, Thomas Smith and Hans Swartz, of Bellefonte.

Cleveland, O., April 1.—Work was suspended to-day in all the coal mines in the Ohio district. The cause is the fact that the proposed increase in wages agreed upon between the miners and mine operators at Columbus and Chicago has not yet been applied to the common laborers in the mines. The operators say they have not yet had time to make all the readjustments necessary because of the new wage scale. A number of them have gone to the mines to see that the matter is not so serious as it is represented to be. The matter will be straightened out by the middle of next week. It is claimed that there is no danger of trouble.

Terre Haute, Ind., April 1.—The Indiana miners to-day held two big meetings to celebrate the signing of the wages scale for the year beginning to-day, under which they will receive an advance of 100 cents. At Brazil National President Ratcliff, of the United Mine Workers, was the speaker, and at Linton, Thomas Davis, editor of the United Mine Workers Journal, was on the programme. It is understood by both operators and miners that there is to be a suspension until the coal now on hand can be consumed. The industries and large consumers have laid in an extra supply in anticipation of an advance in the price of at least 15c, as the coal hereafter mined goes on the market.

Many authorities in coal-mining matters have contended for some time back that bituminous coal has been steadily substituted with anthracite as fuel in various industries. It would seem from a report just submitted by the new chief of the Pennsylvania Bureau of Mines, that this contention is true to a certain extent. In his report the authority quoted asserts that the production of soft coal in the state is steadily increasing, while the output of anthracite is as steadily decreasing, from which it must be concluded that the cheaper fuel is being substituted for the dearer.

In 1897 the production of hard coal fell off from 1,966,126,976 gross tons to 1,866,616,616 tons in spite of the prolonged strike in the western part of the state. Undoubtedly the production would have been considerably larger had the report says, but for strikes. The chief says there are too many mines and too many miners, so that the sufferings of the miners are not due so much to the wages paid as to the inability to get sufficient days of work.—Bradstreet's.

Brazil, Ind., April 1.—The celebration by the miners of the inauguration of the eight-hour day, which takes effect here to-day, was the greatest demonstration ever witnessed in this county. Fully 5,000 miners participated in the exercises. The parade was over two miles long. A ball large enough to accommodate the crowds could not be secured, a speaker's stand was erected in Hendrix Grove.

M. D. Ratcliff, president of the United Mine Workers of America, delivered the principal address. His remarks were patriotic. He admonished the miners to stand by America in case of war, and was applauded vigorously, notwithstanding a large majority of the miners present were foreigners. Mr. Ratcliff said that trade unions were formed for the protection of laboring men, and not for the purpose of having employees fight employers. He spoke in commendable terms of the eight-hour day movement, and said the miners should aid other labor unions in getting a reduction in working hours.

The principal streets of the city were profusely decorated with the national colors, and occasionally a Cuban flag floated from a window. When the eyes of the miners they cheered vociferously.

E. S. Holiday, of this city, also addressed the convention. A large banner was carried in the parade, on which was inscribed: "M. D. Ratcliff, Next President of the American Federation of Labor."

Wasting in Children

can be overcome in almost all cases by the use of Scott's Emulsion of Cod-Liver Oil and the Hypophosphites of Lime and Soda. While it is a scientific fact that cod-liver oil is the most digestible oil in existence, it

is not only palatable, but it is already digested and made ready for immediate absorption by the system. It is also combined with the hypophosphites, which supply a food not only for the tissues of the body, but for the bones and nerves, and will build up the child when its ordinary food does not supply proper nourishment.

Be sure you get SCOTT'S Emulsion. See that the man and fish are on the wrapper. It is sold in bottles of 50c and \$1.00. SCOTT & BOWNE, Chemists, New York.

MOODY MEETING.

Union Tabernacle Crowded Nightly with Thousands of Hearers.

FINE WORK BY THE CHOIR.

Other Notes of News from Hopkinsville and Christian County.

COMPULSORY VACCINATION ORDERED

Hopkinsville, Ky., April 5.—Evangelist Dwight L. Moody inaugurated a protracted meeting at Union Tabernacle here to-day. He preached to 1,500 people this morning, his subject being "God's Grace." Fully 4,000 heard his sermon on "The New Birth" to-night. During the next two days he will preach exclusively on the functions of the Holy Spirit. His discourse tonight was directed especially to sinners. There were several conversions. This is Mr. Moody's first visit here, and great interest is being manifested. People are flocking here from all over Southern Kentucky, and it is doubtful if the tabernacle will be large enough to accommodate all who wish to hear the noted divine. He will remain here ten days. The services begin with song service at 10 a. m. and 7 p. m. A large choir of drilled singers under the direction of Prof. Harry Maxwell leads the singing.

Severely Injured.

Hopkinsville, Ky., April 3.—Beatrice, the four-year-old daughter of Mr. May Humphreys, called a stray dog that was passing by the yard today. The animal sprang on the child, knocked her down and bit her several times. Mrs. Humphreys, attracted by the little girl's frightened screams, ran toward her and threw a butcher knife at the dog. The knife struck the child, inflicting a serious wound. The mother grabbed the child from the vicious animal, but as she ran to the house the dog again sprang on the child and buried its teeth in her flesh. The girl is perhaps fatally injured. It is believed that the dog was mad, and it is said to have bitten several other dogs.

Latex—It has been found that the dog was not rabid and the physicians believe the little girl will recover.

Compulsory Vaccination

Vaccination is being done by order of the City Council—thoroughly done. The Mayor has been authorized to employ physicians to vaccinate all who are not able to pay for the operation. The penalty for failure to meet the requirements of the ordinance is a fine of \$5 to \$20. If the smallpox comes Hopkinsville will be ready.

Child Burned to Death.

Hopkinsville, Ky., March 31.—The six-year-old daughter of Robert Dunning, of Empire, this county, was burned to death last evening. Her clothes caught from an open grate. In an effort to extinguish the flames the child's mother was very badly burned.

Stable Burned.

Mr. J. C. McKnight, a prominent farmer of Garretttsburg, lost his stable and contents by fire Sunday. The building and some 300 barrels of corn, harness, farm implements, etc., were destroyed. The total loss is placed at \$1500. This is one of a number of fires he has suffered during the past few years.

Thos. Wooten was acquitted last Friday of the charge of killing W. T. Brann.

The J. A. Boyd has been appointed deputy constable in Lafayette district, under constable Frank Rives.

The city officials are after vagrants sharply and will not tolerate them. These found will be given a healthy term in the work house.

A new time card is in effect on the Illinois Central Railroad. The morning train now leaves at 6:50 and the afternoon train at 2:40.

A gold watch was taken by a thief from the home of Mr. and Mrs. W. W. Johnson, of Kelly, while they were absent Saturday night. Entrance was gained through a rear window.

Mr. J. T. Wells, of Muhlenberg County, and Miss Ida Putman, of North Christian, were married at the home of the bride's father, Mr. B. Putman, Sunday.

Mr. Walter Armstrong and Miss Vivian Clark, of North Christian, were married Sunday afternoon at the home of the bride's parents near Crofton. Rev. W. E. McChord officiated.

The laggaroo so common at this season is due to impoverished blood. Hood's Sarsaparilla cures it by enriching the blood.

Iron Hill Items.

We are having some fine weather at present.

Dick Kemp, of Farmersville, visited his brother in Crittenden Sunday.

George Kemp went to Marion Monday.

Bud Simpson and Colby Ogilby went to Marion Tuesday.

Oats and wheat look fine.

Alex Guess and son passed through this vicinity Friday.

Mrs. M. E. Towery and granddaughter visited in Caldwell Saturday.

Piney creek is level with her banks and still rising.

The Marion road is nearly impassable on account of high water.

Very few logs are being fed for the market in this section.

Two of our enterprising farmers, John Beckner and Iley Stultons went to Marion Saturday.

Some of the Democrats that own large farms say that times are so hard that they don't believe they will be able to hire hands, but they will put out a little tobacco and try to take care of their wheat.

To Cure Constipation Forever. Take Cascarella's Candy Cathartic, 10c or 25c. If C. C. fail to cure, druggists refund money.

St. Charles News.

Mr. Jno. B. Atkinson, of Earlington, was in town Saturday.

Mr. and Mrs. Henry West returned last Sunday from a visit to relatives in Hopkinsville.

Mrs. Chas. Hewlette is visiting friends at Madisonville this week.

Taylor Cranor, of the country, was in the city Saturday.

Geo. Faull, wife and son visited in Madisonville Saturday.

Dr. Gooch, of Empire, was here Saturday.

Jno. Robinson went to Madisonville on business one day last week.

Will Goldworthy, of Empire, is visiting relatives here this week.

Eddie Burton and Mrs. Jennie Warner of Providence spent Sunday here.

Albert Koenen and wife are visiting relatives at this place.

Mr. Lester Park, of Paducah, spent Saturday with friends here.

Messrs. Ferd Balder, Ben Gilliland and John Balder, Sr., spent Monday at Madisonville.

Mr. Dan Trotter made a flying trip to Madisonville Monday.

The Bee

"By Industry we Thrive."

LOCAL NEWS.

Earlington men who have not been subscribers to THE BEE are voluntarily offering their subscriptions in gratifying numbers. There are others whose names we would appreciate. Add them now.

An Earlington gentleman said the other day that it was a shame for a man not to take his home paper, and he forthwith entered his name as a subscriber to THE BEE. Go thou and do likewise.

Miss Bessie Brown, of Madisonville, visited Miss Mary Mothershead Sunday.

Mrs. C. H. McGary and little daughter spent a few days this week with relatives in Springfield.

Miss Mary Mahoney left last Thursday for Russellville, where she intends making her future home.

Mr. Clint Desmore and family, who have been Earlington citizens for a long while, have gone to Indiana to make their future home. Mr. Desmore will engage in farming.

Mr. E. J. Umstead is a regular traveler by rail to his work with the Madisonville Machine Co., but is looking forward to the time when he can use his bicycle back and forth.

The masonry for the iron foot bridge over the creek here is in progress and in a short time pedestrians can place their mortal soles upon the most substantial footbridge in the country.

Our mortar-fied friend, George Farnsworth, and his first lieutenant, William Radford, are laying brick sidewalks in Logtown, thereby enabling the inhabitants of that part of the city to take their "feet out of the miry clay."

Several residences and business houses were fully equipped with "clandestine" lights by our head electricians, Messrs. White and Peyton. These gentlemen "climbed" poles and made connections several days last week.

A plate glass front was added to the St. Bernard drug store last week. Artist Swope of Mortons Gap, is treating the exterior to a new coat of paint. When he completes the job the local scenery of that vicinity will be enhanced fully fifty per cent.

Rev. Morgan, of the regular Primitive Baptist, filled his appointment last Saturday night, preaching at the home of Mr. John Franklin. The meeting was well attended and great interest manifested during the services.

Rev. C. C. Hall, of the M. E. church, tackled the sinners of this place, Sunday, and Sunday night, exhorting them to break off the shackles of sin and flee the coming wrath. In the afternoon he went out to McCord's school house and pointed out to the transgressors of that vicinity their alarming proximity to perpetual fire.

Spring weather has developed the athletic spirit in some of the big boys of the town. The game of casting the disc (a ball and chain that belongs to the rock pile) has been indulged in by William McCarty, Wash Etheridge, Henry Bourland and other young men about town. John Twyman holds the record.

Beautiful notices are out announcing the Easter services conducted by Madisonville Commandery No. 27 Knights Templar at the Methodist Episcopal Church, South, Madisonville, Ky., next Sunday. Rev. S. H. Lovelace will deliver the address, services beginning at 11 o'clock a. m. Dinner at Hotel Lucile to Knights and ladies.

Stockholders Meeting.
The annual meeting of the stockholders of the St. Bernard Coal Company will be held in the general offices of the company at Earlington, Ky., Wednesday April 20th, 1898.

GEO. C. ATKINSON, Secretary.

Gathering of Teachers.
At Hanson, there are a number of young teachers in Prin. McCulley's training classes. Tuition and board most reasonable. In the college to be established there next fall, tuition will be free. Only a limited number can be enrolled the first year. Register early.

E. McCULLEY, A. M., Hanson, Ky.

Vandalism.
Somebody's boy or boys have been guilty of a species of vandalism in connection with the boats on Loch Mary, that is growing irksome to the owners of the property injured, misused and destroyed by them. M. McCord, Henry McDowell and Duck Williams own a boat upon which they have spent several dollars for locks, which have been repeatedly broken by these chaps, who were had off for a ride and who do not regard the property rights of others. The locks on the boats owned by the St. Bernard Coal Company have also been often broken, the boats sunk in the shallow water and otherwise badly abused.

For the information of the boys or men who have been guilty of this vandalism and as a timely warning THE BEE states that the owners of the property in question are making complaints and asserting that if the offenders are caught they shall suffer the penalty prescribed by law. Better quit now while times are good.

Beware of Ointments For Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good they possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is internally acting upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure, be sure you get the genuine. It is taken internally, made in Toledo, O., by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c per bottle. Hall's Family Pills are the best.

A Pain-ful Ending.

The juvenile devotees of base ball here came to grief last Saturday afternoon. A number of frying size boys had secured a bat and a ball improvised from a superannuated sock, and were conducting an informal game upon the street. The greatest hilarity prevailed and all went well until one of the crack bats took the mark and sent a wild ball soaring through the window into Dr. Mothershead's drug store. The boys disappeared as by magic, and when an investigating committee with pendent eyes emerged from the "druggery" three seconds later but three of the multitude were visible. These entered a plea of guilty, and anted up the value of a new pane of glass, since which time base ball goes a begging.

How to Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected you have a pinched look. Secure good looks and, thereby, surely have a healthy look. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures all biliousness and gives a good complexion. Every bottle guaranteed. Sold at St. Bernard Drug Store. 50 cents per bottle.

Will Begin a Meeting.

Rev. C. C. Hall, pastor of the Methodist Episcopal Church requests the announcement that he will begin a series of meetings next Sunday the 19th instant. And he extends a special invitation to all Christian people to assist in the meeting.

An Entertaining Druggist.

There are few men more wide awake and enterprising than the St. Bernard who spare no pains to secure the best of everything in their line for their many customers. They now have the valuable Remedy for Dr. King's New Discovery for Consumption, Coughs and Colds. This is the wonderful remedy that is producing such a furor all over the country by its many startling cures. It absolutely cures Asthma, Bronchitis, Hoarseness and all affections of the Throat, Chest and Lungs. Call at above drug store and get a trial bottle free or a regular size for 50 cents and \$1.00. Guaranteed to cure or price refunded.

Kentucky Horses.

Mr. Jno. T. Barnett visited horse sales at Lexington last week and bought a half dozen Bluegrass horses for Barnett & Arnold's new stable. Mr. D. D. Guest, of Princeton, and other gentlemen from that section bought horses and all were shipped together.

I heard of Dr. Bell's Pine Tar Honey, and seeing mentions from different persons, of its wonderful valuable merits, I thought I would try a bottle. I have been seriously affected for twenty-five years with a cough and pains in my side and breast that were causing me a miserable life. I spent hundreds of dollars with doctors and for medicine, but everything failed until I found this wonderful remedy. It beats the world and has saved my life. I recommend Dr. Bell's Pine Tar Honey to everybody with weak lungs. It is a great success. J. B. Kossell, Grantburg, Ill. For sale by St. Bernard Drug Store, Earlington, Geo. King, St. Charles.

Mrs. Browder Myers has gone to Nashville, where she and Mr. Myers will make their home for the present at least. Browder's through run as baggage man did not permit his being at home at Earlington, hence the change. Mrs. Myers will be much missed. She was prominent in church, Christian Endeavor and temperance work.

OUR GUARANTEE \$100.00 IN GOLD.
We will pay One Hundred Dollars in Gold for any and every case of cough and colds where no benefit is derived from the use of Dr. Otto's Spruce Gum Balsam. It contains nothing injurious and is so pleasant to take. Beware of imitations. Sold by St. Bernard Drug Store.

THE HOME GUARD.

Company E. Kentucky State Guard, at Madisonville, Getting Ready.

New Members to be Enlisted and New Arms Coming.

Members of Company E., Kentucky State Guard, at Madisonville, are holding themselves in readiness for service if the call should come. A dozen members, whose time expired last week, re-enlisted and have entered for another three years' service. With the prospect of possible action a number of young men have been waiting to enlist, but some of these do not want to enlist unless they are to be sent to the front.

Capt. Burfield received instructions some days ago from Col. T. J. Smith, commanding the regiment, to recruit his company up to eighty, but the Captain has been waiting until he could provide arms and equipment for the new men before making any enlistments. He has now made an authorized requisition on the State for the necessary guns and accoutrements which are expected to be furnished promptly.

The company is being drilled regularly and put in excellent form.

A dispatch from Frankfort Monday said:

The state arsenal was the scene of warlike activity to-day. The freight train last night brought here for this department an ominous supply of guns, enlistment blanks, 20,000 cartridges, and other military accoutrements for the more complete equipment of the state guard. In official circles it is stated that this is merely an annual replenishing of the state's war department, but there is little reason to doubt that it is being done to a greater extent because of the prospect of war.

Needed Bracing Up.

"I was feeling very much run down and needed a bracing up medicine. I began taking Hood's Sarsaparilla and soon felt better and better. My appetite returned and I gained in weight. When the yellow fever broke out I did not take it, although exposed to the disease." G. HALL, 8 Ashland Court, Memphis, Tenn.

Hood's Pills cure all liver ills. Mailed for 25c. by C. I. Hood & Co., Lowell, Mass.

Sunrise Meeting.

A cordial invitation is extended to our citizens to attend a Sunrise Easter service to be held in the Assembly Hall, at 6:30 a. m., next Sunday April 19th, under the auspices of the Union Society of Young People's Society of Christian Endeavor.

Mrs. A. Inven, residing at 725 Henry St., Alton, Ill., suffered with sciatic rheumatism for over eight months. She doctor for it nearly the whole of the time, using various remedies recommended by friends, but without success. She was treated by the physicians and but received no relief. She then used one and a half bottles of Chamberlain's Pain Balm, which effected a complete cure. This is published at her request, as she wants others similarly afflicted to know what cured her. 25 and 50 cent sizes for sale by St. Bernard Drug Store, Earlington, Geo. King, St. Charles; Ben T. Robinson, Mortons Gap.

John Twyman finished the home stretch upon the Masonic goat last Friday night and is now a full-fledged brother of the "Mystic Tie." The lodge has been working like beavers for several months past, called meetings being a frequent occurrence and several victims are yet on the string.

Two years ago, R. J. Warren, a druggist at Pleasant Brook, N. Y., bought a small supply of Chamberlain's Cough Remedy. He sums up the result as follows: "At that time the goods were unknown in this section; today Chamberlain's Cough Remedy has household words. It is the same old, good, reliable medicine. Where ever the good qualities of Chamberlain's Cough Remedy become known, people will have nothing but good to say for it. Sold by St. Bernard Drug Store, Earlington; Geo. King, St. Charles; Ben T. Robinson, Mortons Gap.

Spring improvements are upon us with the opening of spring weather. A new veranda is being built to the front of Mr. Jno. B. Atkinson's residence, the St. Bernard Drug Store has been given a new plate glass front, pavement, etc., and the spirit of renovation and improvement prevails.

Everybody Says So.

Castoreum Candy Catarrh, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, acts gently and surely on the liver and bowels, cleansing the entire system, dispels colds, cures headache, fever, habitual constipation, biliousness, etc. Please buy and try a box of C. C. to-day! 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

Accordeons were invented in 1829 by Mr. Damin, of Vienna, and a single German firm now manufactures over 17,000 a year.

Better Than A Klondike Gold Mine.

Good health is priceless when once lost. When you have a cold or cough, invest 25c. in a bottle of Dr. Otto's Spruce Gum Balsam, the returns are greater than a gold mine. In an Alaska gold mine a gold cannot be lost. Beware of a slight cold. Sold by St. Bernard Drug Store.

The Twenty-first Regiment National Guards, at Saratoga, N. Y., have been kept in readiness with a train of cars waiting to move them at once when needed.

Whether it's a stubborn cold or just a sniffle, you can cure it for good with Dr. Bell's Pine Tar Honey. This famous remedy taken in time will stop the progress of consumption and bring the color of health to the pallid cheek. For sale by St. Bernard Drug Store, Earlington, Geo. King, St. Charles.

Miss Clara Barton, the Red Cross angel, has returned to Cuba on her mission of mercy, carrying further relief to destitute reconcentrados.

Buckley's Arnica Salve.
The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chills, Corns and all Skin Eruptions, and positively cures Cures or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25c per box. For Sale by St. Bernard Drug Store.

Don't fail to see J. E. Toole in "Killarney and the Rhine" to-night. The best thing of the season. Prices 35 and 50c.

CATARRH SIX YEARS.

Grew Rapidly Worse—Doctors Did No Good.

Mrs. Adm Staats, Mequon, Wis., in a recent letter to Dr. Harsman, writes: "I write this letter because of my sympathy for the suffering people. For six years I suffered with chronic catarrh. When I caught cold I would have a severe spell of sickness. I used different catarrh medicines and the doctors did all they could, but the relief was only temporary. In December, 1897, my condition became very bad. I could not speak aloud; I had a terrible cough, profuse expectoration and frequently spit blood; night sweats and extreme emaciation. I was sure I must die of consumption. The catarrh seemed to have spread all over my body; my head, throat, nose, bladder and womb. At this time I received a book concerning Pe-ru-na. I immediately wrote to Dr. Hartman, who prescribed Pe-ru-na and Man-a-lin. I followed his directions strictly. I began to improve with the first bottle, and during the time that I took the medicines I gained twenty pounds. I feel as well now as anyone could possibly feel. I am sure I would have been dead long ago had it not been for Dr. Hartman's advice and medicine."

Every woman should have a copy of Dr. Hartman's latest book entitled "Health and Beauty." Sent free by the Pe-ru-na Drug Manufacturing Company, Columbus, Ohio.

Easter Flowers.

Mr. W. S. McGary will have a nice lot of cut flowers for Easter. They will arrive Saturday afternoon at 4 o'clock. See him.

The Debating Society.

A lively interest is being manifested in the debating society. Meetings are held on Tuesday evening of each week at Assembly Hall. A cordial invitation is extended to all who are interested in these meetings, to be at Assembly Hall promptly at 7:30 o'clock next Tuesday evening. A treat is in store for all who come. The program for the evening is as follows:

Recitation, Lizzie Dean.
Music, Quartette.
Recitation, Lilly Evans.
Music, Quartette.

Debate, Question, Resolved, that novel reading produces greater moral injury than benefit.

Affirmative, J. E. Day, I. H. Teel, Celeste Moore.

Negative, W. A. Toombs, C. C. Hall, Susan Burr.

Adjournment.

The debate of last Tuesday night was on the question, Resolved, That an income tax is just. Those who participated were Messrs. H. White and J. R. Rash, affirmative, and Messrs. W. F. Burr and E. B. Burr, for the negative.

A unanimous decision for the affirmative was given by the judges.

Dr. Otto's Spruce Gum Balsam is a scientific remedy based on modern discoveries and compounded by chemists of renown who have given throat and lung diseases a life study. Ask your druggist to secure it for you if it is not in stock. Sold in 25c, 50c, and 1.00 sizes.

Sold by St. Bernard Drug Store.

Mr. W. D. Laffoon, of the Fox school house vicinity, paid this office a pleasant call last Monday. Mr. Laffoon is a prosperous, well known farmer of that section and is the owner of the Taurus that invaded THE BEE office a short time since, said visit quickly resulting in the conversion of every attaché of this paper, for it made them every one BEE-leavers at once. Come again, Mr. Laffoon, the whole force will ever remember you as a bull-y fellow.

Three hundred naval recruits have gone from Galveston, Tex., to Norfolk, Va.

Don't Tobacco Spit and Smoke Your Life Away. To quit tobacco easily and forever, be made, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 25c or 50c. Cure guaranteed. Booklet and sample free. Address: Sterling Remedy Co., Chicago or New York.

The battleship Texas is at last declared repaired, stripped and ready for action.

LOCOMOTIVE BLASTS.

The engine has but just one eye.—The headlight bright and clear; And that reminds us, by the by, There's just one engine—ear.—L. A. W. Bulletin.

A business call was the cause of foreman O'Brien spending a few hours at Hopkinsville one day last week.

The wife of Mr. Browder Myers left for Nashville last week where they have taken up their residence for the present.

Washouts on the E. & T. H. caused No. 91 and 92 to be discontinued several days last week, but travel has again been resumed.

Train robbers made a mistake last week and held up a freight train instead of a passenger train as they intended and the result was a water haul.

The L. & N. company by great care and quick work kept all trains moving on the St. Louis division last week although at times the water threatened to cause them much trouble.

The ladies of the W. C. T. U. of this place feel very much excited in their good work, since the enrolling in their order of a popular young (?) engineer, he being an honorary member of the same.

A trip to Evansville last week revealed the fact that the dispatchers are keeping a close watch on the water rammers and strange to say all had an excuse for not offering their services to his country.

The band boys were m. de happy last week by the return of their former music teacher, Mr. H. H. Henshaw, who has again taken up his abode with us and is again painting things red at the car shops.

Forty cars of canned meats recently purchased by the government from a Chicago firm, and as soon as loaded, is to be sent on two trains to New York. These trains to have rights over all other trains while enroute.

Supervisor Sullivan has been kept very busy the past week looking after track work that was threatened by high water. At Henderson the incline track has caused him a great deal of trouble and extra work.

The sad news was received here last Sunday that our brother, James J. Riordan had met with a fatal accident, while walking along the track at Howell. He was struck by an engine and received such serious injuries as to cause his death. The deceased once made his home at Earlington and was much beloved by those who made his acquaintance, and it grieves them sorely to learn of his death.

The overflow of the Ohio river between Henderson and Howell last week came near doing serious injury to the railroad track by washing out the embankments, but the close watch kept by the officials of the road under the supervision of the threatened washout. Superintendent Martin, Master of Trains Deane, and Roadmaster Robson with a large force of men protected the embankments at weak places with rock, thus avoiding trouble.

Nashville, Tenn., March 17.—United States Judge Clark today rendered two decisions in the case of the Nashville, Chattanooga & St. Louis Railway Company against the state board of equalizers, involving the question of the tax assessment of the railway's property.

The first decision holds that the case involved a federal question, and the court had jurisdiction. The second dismissed the defendant's motion for a writ of habeas corpus, and the court affirmed the decision of the state board of equalizers, holding that the bill averring unequal assessments, and granting the same, allowing the defendants to answer the bill.

The injunction prevents the state board of equalizers certifying the assessments to the controller for collection.

Peoria, Ill., March 31.—The report that Grand Chief Arthur, of the Brotherhood of Locomotive Engineers, is secretly wedding his great influence with that organization to prevent the federation scheme into which the firemen, telegraphers, trainmen and conductors have already entered, is accredited by Frank P. Sargent, grand master of the Brotherhood of Locomotive Firemen.

"Don't you believe anything of the kind," said Mr. Sargent today. "Mr. Arthur will present the federation plan to the delegates to the national convention, which is to be held at St. Louis in May. He will do this without recommendation and allow the delegates to make whatever disposition of it they choose. I have this from Mr. Arthur's own lips. The brotherhoods have all been working under a system which was adopted at Cedar Rapids several years ago and very successfully at that. The new plan goes into effect tomorrow and is virtually the same, only that it is of a national character. It is not at all reasonable to suppose that it would be opposed by Mr. Arthur. The organization who have been a party to the old system and benefited from it. The report that Mr. Arthur is opposing the federation is simply a canard, just as was the report that he might be defeated for the position of grand master at the convention. The fact of the matter is that he has two more years to serve, so you can draw your own conclusions."

Educate Your Bowels With Cascarets.
Candy Cathartic, cure constipation forever. 10c, 25c. If C. C. C. fail, druggists refund money.

Don't fail to see J. E. Toole's beautiful dialect melo-drama, "Killarney and the Rhine," to-night. Good. 35 and 50 cents.

It is suggested that the United States troops concentrate at Chickamauga in case of war with the Spaniards.

Dr. Otto's Spruce Gum Balsam—the most pleasant and reliable remedy for coughs, colds, croup, and all soreness of the throat, chest and lungs. Large bottles, 25c and 50c. Sold by St. Bernard Drug Store.

The Same..

Old Sarsaparilla.

That's Ayer's. The same old sarsaparilla as it was made and sold by Dr. J. C. Ayer 50 years ago. In the laboratory it is different. There modern appliances lead speed to skill and experience. But the sarsaparilla is the same old sarsaparilla that made the record—50 years of cures. Why don't we better it? Well, we're much in the condition of the Bishop and the raspberry: "Doubtless," he said, "God might have made a better berry. But doubtless, also, He never did." Why don't we better the sarsaparilla? We can't. We are using the same old plant that cured the Indians and the Spaniards. It has not been bettered. And since we make sarsaparilla compound out of sarsaparilla plant, we see no way of improvement. Of course, if we were making some secret chemical compound we might... But we're not. We're making the same old sarsaparilla to cure the same old diseases. You can tell it's the same old sarsaparilla because it works the same old cures. It's the sovereign blood purifier, and—*it's Ayer's.*

The Portland, Ore., Commercial Review says: "The condition of growing wheat, both in the valley and east of the Cascades, is all that could be desired. The weather during the week has been variable, the rains cold and temperature at times frosty, but no damage has been reported anywhere, and nothing has occurred to alter previous expectations of a very large crop."

The Government dispatched aid from Memphis and Cairo to the Shawneetown flood sufferers.

Relief for Flood Sufferers.
The St. Bernard Coal Company through Mr. Geo. C. Atkinson, secretary, yesterday contributed one hundred dollars cash to the flood sufferers at Shawneetown. A further contribution of two cars of coal was also made to be shipped as soon as the railroad can haul it to the stricken city.

To-night—J. E. Toole in "Killarney and the Rhine."

The Cost of War Preparations.
Key West, April 4.—A stupendous amount of work has been accomplished here during the last thirty days in coaling and provisioning. The expenditures during the month of March, due to war preparations, amounted to \$132,000, of which \$72,000 was for ammunition. This was distributed among the ships and does not include \$70,000 worth in store, nor large shipments now en route. The lower is to have a protection of sand bags, the preparation being now in progress.

No-To-Bac for Fifty Cents.
Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c. All druggists.

See Toole in "Killarney and the Rhine" to-night. Thirty-five and fifty cents.

New Company of State Guards.
Glasgow, Ky., April 5.—A state guard organized here tonight with 40 members, and several more will probably join when Col. T. J. Smith arrives next week to muster in the new company.

Americans are leaving Havana as fast as they can find ships.

Information from the imprisoned whaling vessels in the Arctic region is that the men are suffering untold privations.

DETECTIVE
We want a man in every locality to act as private Detective under instructions. Experience unnecessary. Address, CO-OPERATIVE DETECTIVE AGENCY, Nashville, Tenn.

KENTUCKY DELEGATES

To the International Mining Congress in Utah in July Named by Gov. Bradley.

JNO. B. ATKINSON A DELEGATE.

Frankfort, Ky., April 4.—Gov. Bradley tonight announced the following appointments of delegates to the international mining congress to be held at Salt Lake, Utah, July 6 to 9 inclusive: Geo. W. Stone, Lexington; John B. Atkinson, Earlington; J. B. Smith, London; Thomas Duncan, Henry; Eskridge, Bannock Coleman, Chas. Brown, Louisville; John Adair, Hawesville; W. R. Dillion, Livingston; A. Gatliffe, Williamsburg; D. P. Whitsitt, Knox county; Joe C. Parker, Pulaski; Charles Nield, Grays; Sid Rowland, Pittsburg.

The Portland, Ore., Commercial Review says: "The condition of growing wheat, both in the valley and east of the Cascades, is all that could be desired. The weather during the week has been variable, the rains cold and temperature at times frosty, but no damage has been reported anywhere, and nothing has occurred to alter previous expectations of a very large crop."

The Government dispatched aid from Memphis and Cairo to the Shawneetown flood sufferers.

SYRUP OF FIGS

ONE ENJOYS Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. BARNETT & ARNOLD.

EARLINGTON, KY.

He will probably take charge of his office on the 1st of May. The Major has had an eleven months' seige of it, and is to-night receiving congratulations from many friends. He will leave for Hopkinsville the latter part of the week.

In Vineland, N. J., is a poet with radical views on the subject of taxation, who has gone to jail rather than pay his poll tax, amounting to \$1.30.

strangers and to treat them kindly. The stranger as well as the brother must have a place in our consideration. Even the poor, the lame, the blind, the deaf, the tramps and vagabonds, though in many cases unworthy, should not be treated unkindly. If we treat them kindly in Christ's name, it will be done unto Him rather than unto them, and He will reward.

2. Hospitality rewarded. Abraham was amply rewarded. Though little dreaming of such a thing he was serving Jehovah and two of His servants were sent to him to bring him back to them. The two disciples in entertaining a stranger entertained their risen Saviour. It pays to be kind. A cup of cold water in Christ's name brings its reward. "Inasmuch as ye have done it unto one of these my brethren, ye have done it unto Me."

Wants to be Brigadier General.
Princeton, Ky., March 31.—Major F. J. Johnson, of the Kentucky State Guards, has asked the United States Government for a commission as Brigadier General to raise 5,000 troops in Western Kentucky in the event of war with Spain.

At the beginning of a recent thunderstorm, electrified drops were observed that cracked faintly on reaching the ground and admitted sparks.

American forests have produced during the past sixty years 24,000,000,000 feet of lumber, valued at \$25,000,000.

bove, to the first half year's operations of the Dingley law compared with the corresponding six months of the preceding year under the Wilson law.

Thus it will be seen that while the importation of articles of farm and household use fell off \$23,000,000, the percentage of reduction being in each case about the same and the two classes of farmers and those dependent upon manufacturers, being thus benefited in like proportion.

Another evidence of the increased activity which the new law has brought to our own manufacturers and their employes is evident in the increase in importation of raw material under the Dingley act. In its first six months the importations of raw materials for use in manufacturing amounted to \$96,723,625, while under the preceding Wilson law, whose authors and supporters were especial advocates of the "free raw material" idea, the importations of raw material amounted to only \$79,583,117 in the corresponding months of the preceding year.

That the new law is operating especially in the interests of the farmers and those dependent upon the manufacturing industries for their employment is thus clearly shown; first, in the reduction in importation of articles of food and live animals, which fell off so perceptibly; second, in the reduction in importation of manufactured articles which compete with home industries, the reduction in this case being about the same; third,

men who all aided in any way.

Mrs. Carrie Alexander wishes to extend her sincere thanks to those who lent their services in the concert, and also to those who patronized it.

The concert that was given last Saturday night was a most decided success.

Rev. Silvey, of Providence, preached the funeral of Bro. Pius Duncan Sunday, and also preached at the Baptist church Sunday night.

Charlie Cross at all smiles. It is a fine day.

Henry Ray is on the sick list.

Bro. Pius Duncan departed this life on April 2. He leaves a wife and other relatives to mourn his loss. We extend our earnest sympathy to the bereaved ones.

Rev. E. Cary, of Providence, was the guest of T. H. Merriweather Sunday.

Bill Nelson, of Madisonville, was out Sunday visiting his many friends.

Easter services at the Methodist church, Sunday.

Mr. W. H. Ross, of Madisonville, was here Sunday, together with Prof. Cabel and Rev. A. Johnson.

Rev. R. H. Hall, of Mortons Gap, visited our town last week.

Mia, L. B. Cavanah is improving.

Doctor Nichols visited Weeping Heller last week, on business.

Rev. W. H. Gordon was in our city last Sunday.

The Cumberland Presbyterians held their Presbytery in Madisonville last week.

Moody, the great evangelist, is in Hopkinsville this week.

If our Baptist friends do not believe in free silver, what's the matter with Silvey?

Prof. Westly Smith, of Hopkinsville, will lecture Sunday on the "Location of Jerusalem," at the A. M. E. Zion Church.

Rev. T. H. Merriweather will preach on Easter sermon.

BANKER.

The advantages of a bank account are numerous. It is not to business men we are talking—they know all about it—but to salaried men, wage earners and to women. There's safety—if the bank is a good one. There's convenience—the money always ready and out of reach of your own petty squandering, too. It's easy to spend small sums when you have a large sum in your pocket
